

Medical Alert Solutions helps you anytime, anywhere.

Medical Alert System

Our personal response professionals bring skill and compassion to every call. Using a 2-way voice connection, they carefully handle every call to make sure subscribers get help quickly and efficiently. If you have an emergency, a push of your Button brings help immediately. Your loved ones and key-holders are contacted and we stay with you until help arrives.

Features:

- 24/7 emergency monitoring service
- Waterproof Help button pendant
- No hidden fees or equipment charges
- Rechargeable back-up battery
- Plug-in power supply and phone cord
- Wrist and necklace pendant options
- Easy installation and use

No landline? No problem with our Cellular Base Station.

The Cellular Base Station

With Connect America's new Cellular Base Station, you don't need to have a landline phone to be protected by Connect America's Emergency Response Center. Just plug the Cellular Base Station's power cord into an electrical outlet. Within seconds, you'll have coverage throughout your home. No landline? No problem with our Cellular Base Station!

Features:

- Easy to install "plug and play"
- Does not require a phone line or cell phone
- No cellular contract required
- LCD Display with time and temperature cellular coverage
- Voice prompts
- AT&T network certified
- 36-hour battery back-up
- Compatible with Fall Detector pendant

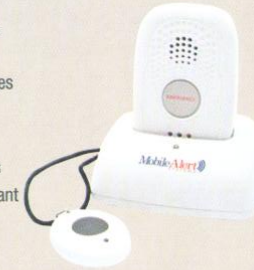

With MobileAlert, you can just get up and GO.

MobileAlert System

MobileAlert's proven GPS technology updates your location information using a satellite-based system. When you press your Help Button, your latest position coordinates are sent to our Response Center pinpointing your location and transmitting your unique ID. We communicate with you, assess your situation and send help — wherever you may be.

Features:

- 24/7 emergency monitoring service
- Anywhere Help button
- No hidden fees or equipment charges
- Charger cradle
- No cell or landline phone required
- Wrist and necklace pendant options
- Compatible with Fall Detector pendant

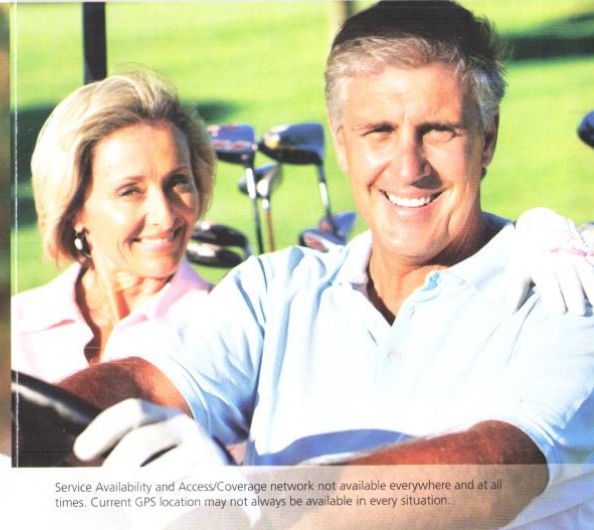

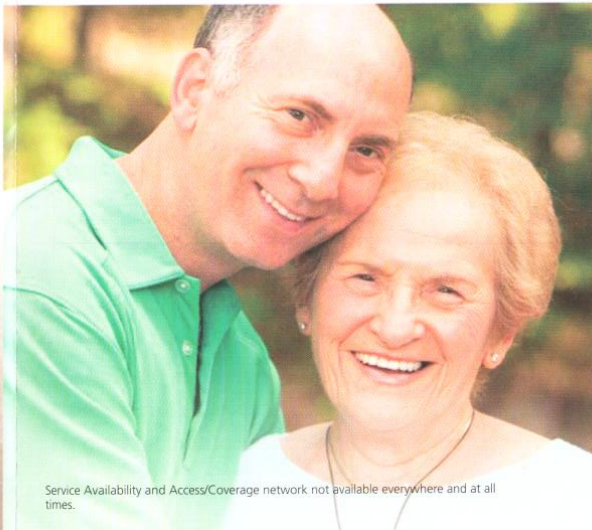

Our new Fall Detector help even if you can't

Fall Detector Pendant

Get help anywhere you go. Connect America's Fall Detector pendant detects a fall and sends a signal to the Response Center. If you can't push your Help Button we will help you anywhere — at home or away. The pendant is waterproof so you can use it in the shower. In addition to the fall detection feature, you can press your button

Features:

- Comfortable and lightweight
- Wearable as a pendant or belt clip
- Waterproof design for use in the shower

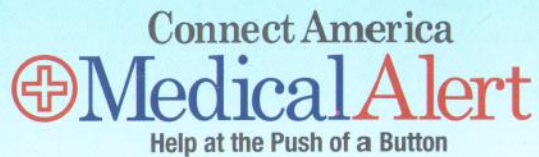

Service Availability and Access/Coverage network not available everywhere and at all times.

Service Availability and Access/Coverage network not available everywhere and at all times. Current GPS location may not always be available in every situation.

Ask about adding the Fall Detector

The Fall Detector pendant is an optional service

A Push of a Button Could Change Your Life.

Did you or a loved one ever have an emergency or fall while all alone? Then you know how helpless that feels. That all changes when you have Medical Alert.

Peace of mind at home or away.

“We almost lost Mom about a year ago. She felt awful pain and pushed her button. Turns out, she was having a heart attack. Thank you, Medical Alert!”

— Mary Jane Mathers, Florida

Giving you and your loved ones peace of mind.

Why choose Medical Alert?

Because you're happy living at home and going where you want to go, just as you've always done. A sudden fall or medical emergency could threaten your health and your independence, so it's important to be prepared with the right tools and a good plan.

That plan should include Medical Alert — one of the most trusted medical alarm services in America. Over one million people have relied on Medical Alert to help them live independent lives. Now, Medical Alert offers you a range of solutions for keeping you safe wherever you are.

How Medical Alert Works

- 1 Your information is immediately sent to the Response Center
- 2 Personal Response Associate begins 2-way communication and assesses the situation
- 3 The associate contacts a neighbor, loved ones, or emergency services, based on your need
